MESSAGE FROM THE PRINCIPAL

Dear Cherrywood Parents and Students,

It's hard to believe that March is here already. It's that time of year when we have our Spring Parent Teacher conferences. We encourage all parents to set up appointments with your child's teacher to learn how they are progressing with their academics and social emotional health. At Cherrywood, we value the importance of maintaining a balance between student success and students' social emotional health which affects a child for a lifetime. This is also a great opportunity to ensure that there is a strong connection between home and school which research has shown to be an indicator of student success. Thank you for all your efforts in ensuring that your child's learning journey is being supported.

We have been celebrating Read Across America all week with reading themed Spirit Days. Congratulations to Ms. Yadao's class, Ms. Xian Zhang's class, Ms. Zhang's class, and Mr. Ramirez's class. Our HSC will also be helping students celebrate the lifelong learning skill of reading by passing out new English and Mandarin books to students at their different reading levels in the next week. Cherrywood Chargers love to read!

I hope you will join us at our next Principal's Coffee on Thursday, 3/16, in our FIS Fab Lab as we continue to discuss and learn about strategies that help students use their breath in relation to their learning.

Partner's in Education,

Mrs. Choy

MARCH IS NATIONAL NUTRITION MONTH!

Have you ever wondered if school meals are a good fit for your child? Did you know that school meals are required to meet strict federal nutrition standards? School meals contain whole grains as well as nutrients that provide children with energy and focus throughout the day. Fresh fruit and vegetables are offered daily and students are encouraged to take at least one serving with their meals. Studies show that students who consume school lunches are more likely to consume healthier food options, i.e., a variety of fruits and vegetables. In turn, students who consume a healthier diet have an increased ability to learn and flourish. For more information on school meals, click [HERE](#).
